

Knife Gate Valve – Ultramarine Coated

Product Overview

Heavy-duty valve designed for slurry and solid-laden media with corrosion-resistant coating.

Technical Specifications

Parameter	Specification
Body Material	Cast Iron
Gate Material	Stainless Steel
Coating	Ultramarine Anti-Corrosion
Pressure Rating	PN10
Temperature Range	-10°C to +150°C
Valve Sizes	16", 20" and 24"
Operation	Handwheel
End Connection	Flanged
Media	Slurry, Wastewater, Powder

Key Features & Benefits

- Corrosion resistant coating
- Handles slurry effectively
- Low pressure drop
- Durable construction

Typical Applications

- Mining
- Pulp & Paper
- Wastewater plants

Standards & Compliance

- Industrial slurry standards
- ISO quality systems
